

Improve business efficiency • Improve employee workplace safety • Improve patient care & management

Beamatic™ Screen Frame #153053 - #153053B

The 3 sections of the screen are attached to each other by a riveted hinge which allows the frame to smoothly fold and unfold as needed. The S-shaped base of each screen section on the frame also increases stability for use in busy environments. Privacy screen panels, either in economical vinyl or attractive designer fabrics are needed to complete the screen. One panel is required for each section and is secured by top and bottom snap in rods.

Features:

- Available in 2, 3, 4 or 5 section models
- Three sections measures 68”H x 55”W
- Requires one vinyl or fabric panel per section
- Anodized aluminum construction provides a lightweight and durable solution eliminating the possibility of paint chipping and rust
- 5 year warranty on Frames
- 90 Days on Screen Panels
